

The Right to Climate Justice

Collective Convergence for Just Solutions and Against Geoengineering

Wed, 04 Dec 2019 11:30 to 13:00 Room 4 - Blue Zone

Climate crisis requires a real transformative shift away from fossil fuels in the production and consumption of everything. Grassroots movements and civil society organizations are making this shift through rights-based proposals that stand in stark contrast to geoengineering and other false solutions.

Organized by: La Via Campesina, Hands Off Mother Earth (HOME) Campaign, Indigenous Environmental Network, Climate Justice Alliance, Grassroots Global Justice Alliance, HOME Foundation, ETC Group, Friends of the Earth International
